OBJECTIVE

BTech CSE (AI & ML) student passionate about building impactful digital products through web development, AI-based problem solving, and design-driven thinking. Experienced in developing production-ready applications, leading technical teams, and executing projects in fast-paced collaborative environments.

SKILLS

- **Programming Languages:** Python, C, JavaScript, HTML, CSS
- **Frameworks & Technologies:** Next.js, React.js, OpenCV, Responsive Web Design, SEO Optimization
- **Tools & Platforms:** GitHub, VS Code, PyCharm, Figma, Git, MS Office,
- **Core Areas:** Web Development, AI/ML Fundamentals, Computer Vision, UI/UX Design, Static Site Optimization
- **Soft Skills:** Leadership, Team Collaboration, Public Speaking, Technical Documentation, Problem Solving, Event Management

EDUCATION

College of Engineering Attingal - Trivandrum, Kerala **Sep 2023 - May 2027**
BTech in Computer Science and Engineering with Artificial Inteligence and Machine Learning **CGPA: 8.5**

CERTIFICATION

- **AI Internship at Academor:** Hands-on projects in Python, data handling, and supervised learning models.
  Feb 2024 - Mar 2024

PROJECTS

- **MicroCleanse | .hack():2024 by IEEE MACE SB** **Aug 2024 - Sep 2024**
  Developed a Python and OpenCV-based image analysis system to detect and quantify microplastics in water samples during a 48-hour IEEE hackathon.
- **www.afiyamed.com**
  Developed and deployed a production-grade healthcare company website using Next.js, implementing SEO optimization, responsive UI, static rendering, and animation-driven design to achieve high Lighthouse performance scores.

ACHIEVEMENTS

- **Best Marketing Strategy Winner - ENIGMA '23, Alchemy IEDC** **Oct 2023**
  Recognized among 50+ teams at a state-level startup conclave for developing a compelling marketing strategy and pitch for a sustainable innovation.
- **First Prize - College Level | NASA Space Apps Challenge 2025 (Trivandrum Local Event):** **Nov 2025**
  Served as Backend Developer and System Integrator, designing and integrating core application logic and data flow between modules.

EXPERIENCE

- **Chairperson - IEEE IAS SBC, College of Engineering Attingal** **Mar 2025 - Mar 2026**
  - Led planning and execution of 10+ technical workshops and collaborated with national IEEE branches for awareness campaigns.
- **Chairperson - ISTE Student Chapter, College of Engineering Attingal** **Jun 2025 - Jun 2026**
  - Managed a team of 25+ students, coordinated weekly tech sessions and events.
- **Documentation Lead - Alchemy IEDC, College of Engineering Attingal** **Feb 2025 - Feb 2026**
  - Drafted structured reports, proposals, and strategies for innovation programs.
